The authors would like to correct the corresponding author's detail published and they regret for any inconvenience this may have caused.

Corresponding author: Peter Frimpong Manso (p_frimpongmanso@yahoo.com)

They also wish to highlight the following changes in the article:

1. Section 3.0 Presentation of Results:

The next sentence after section's title states the following: *The result provided the emergence of four major themes as illustrated in Table 1 below:* In fact, the *four* should have been stated as *three* as there are only *three themes* in the table.

2. Also, on **Table 1 in the same section 3.0** the last theme on the table should have been numbered as **3** instead of **4** to reflect correct sequence of numbering.
